## Agricultural depression

Road congestion is killing  
Brazil's grain export trade

**INSIDE THIS ISSUE** ▶ **MARKETS:** Europe's coal future ▶ **COMMERCE:** Caribbean container recovery falls back ▶ **REGULATION:** Target on tankers ▶ **TECHNOLOGY:** Intermodal co-operation ▶ **LOGISTICS:** Vietnam grapples with logistics ▶ **DECISION-MAKERS:** Mohammad Sourì

## 4-5 Story of the week: Soyabean highway

The Brazilian state of Mato Grosso is a significant soyabean producer and investment in an export corridor northwards will see major new shipping opportunities. Barry Parker investigates

[ Cover photo: Reuters ]

## 6 Markets: Europe's coal future

Speed of recovery in different regions is affecting volume flows for coal. While there are no European markets with power demand growth potential, there are challenges in supporting existing load requirements, Michael Jones warns

## 16 Trade & commerce: Caribbean container recovery lags

The Caribbean container trade slumped into recession late and, although it's now rebounding, there has not been a full recovery and the outlook remains mixed. Greg Miller reports

## 22 Regulation: Target on tankers

Changes to the Oil Pollution Act 1990 focusing on boosting the liability cap for economic damage from \$75M to \$20Bn could shake up the oil transport market and increase costs, writes John Gallagher

## 32 Decision-makers: Turning dreams into reality

Chairman and MD of National Iranian Tanker Co, Mohammad Souri has transformed his company from a regional player into a global giant. But he also has a role as a diplomat without portfolio, observes Richard Clayton

## 3 Look Out

Beanz meanz shipping opportunity. Big, bigger, Cosco

## 4-5 Story of the week

Finding a solution to the congestion that is stifling Brazil's grain export trade

## 6-15 Markets
